

Exploitation of Tight & the Unconventional - (Fee Scedule)

“Only pay for what you need!!”

For the **On-demand (pre-recorded)** option, please make your selection of your choice:

1. Attend the full course (all sections) for only **\$1,500.0** which is 20% off + GST 5% GST
2. Select the requested section(s), and add up the fee of each section + 5% GST

PMG PETRO MANAGEMENT GROUP LTD.

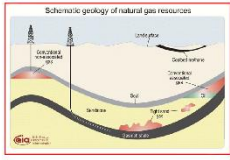

Exploitation of Tight and Unconventional Reservoirs

By: Saad Ibrahim, P. Eng.

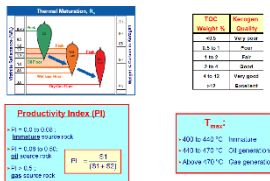

For information: www.pmgintl.com

Conventional vs. Tight/unconventional

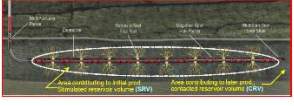

Characterization of the Unconventional

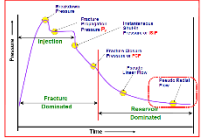

Full course: fee \$1500 (14 hrs 34 min) **Section 1: Fees \$115** (1 hr) **Section 2: Fee \$420** (4 hrs)

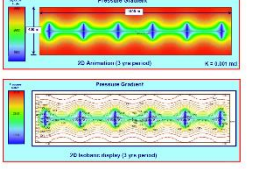

Stimulated Reservoir Volume (SRV) vs Contacted Reservoir Volume (CRV)

Mini Frac Analysis & Applications

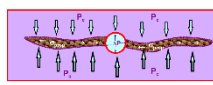

Multi Stage Frac of Horizontal Wells MFHW's

Section 3: \$315 (2 hrs 14 min) **Section 4: Fee \$120** (1 hr 12 min) **Section 5: Fees: \$255** (2 hrs 25min)

Tips on Hydraulic Fracturing

Proppants keep the frac aperture wide open:

$\sigma_{prop} \gg P_c + \Delta P_{drawdown}$

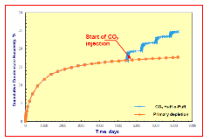

Where:

- σ_{prop} : Proppant mechanical strength
- P_c : Closure pressure
- $\Delta P_{drawdown}$: Draw-down pressure

Reserves Estimate

Technique	Required Data	Technical content	Merits/deficiency
- DCA - Well Typing	- Prod. Data - Compl. data	- Empirical	- Fast - Simplistic
- Type curves - FMB	- Prod. & Press. Data	- Good - Single phase	- More time - Good
- History matching	- Prod. & Press. Reservoir Data	- Excellent - Multi-phase possible	- Time consuming - Can deal with complexity

CO₂ Huff-n-Puff in Unconventional Reservoir

• Primary was conducted at pressure of 1500 psi, condensate recovery of 17%
• During CO₂ Huff-n-Puff (4 cycles), injection pressure was at 4000 psi and production at 1500 psi, condensate recovery of 24.7%

Section 6: \$253 (2 hrs 19 min) **Section 7: \$170** (1 hr 32 min) **Section 8: \$227** (1 hr 52 min)

Included in the fee:

1. Receive videos of the requested section (s)
2. Receive PDF file of the course notes of the selected section (s)
3. Receive had-outs of related technical papers
4. Receive PDF of the class problems & solutions
5. Communicate by e-mail with the instructor for questions/discussions
